Taipei, Taiwan, R.O.C.

Subject: CTI Cooling Tower Certification for the Liang Chi Industry Company, Ltd.
Series U-LC Line (Revision 4) Cooling Towers
2017 Annual Reverification Test

Greetings:

The Cooling Technology Institute (CTI) thermal performance certification for the Liang Chi Industry Company line of Series U-LC (Revision 4) cross-flow, induced-draft, cooling towers was initially granted on November 30, 2015. The line of Series U-LC cooling towers has satisfactorily fulfilled the requirements for the 2017 Annual Reverification Test required to maintain certification of thermal performance by the CTI as set forth in the CTI Certification Standard STD-201(15).

Therefore, the Liang Chi Industry Company line of Series U-LC cooling towers continues its existing certification status for 2018, subject to successful completion of the next Annual Reverification Test.

The Liang Chi Industry Company line of Series U-LC cooling towers should continue to use CTI Certification Validation Number C20D-10R04 (originally 10-20-04). You are hereby authorized and encouraged to display the CTI Certification Logo in all literature exclusive to this line and are required to affix the CTI Certification Label on all towers comprising the line, as provided in the Certification Standard.

Very truly yours,

A handwritten signature in black ink that reads 'Michael Womack'.

Michael G. Womack, PE
CTI Thermal Certification Administrator
